DETERMINING MONTHLY INCOME FOR EARNINGS & WAGES

Monthly income for all household members must be reported in Part 4 of this application. Income means any money regularly received from work, child support, alimony, pensions, retirements, social security or any other source. Exclude student/school loans.

Household members who are not paid monthly should change earnings into monthly income by doing the following:

Household members who are paid every week: Multiply total earnings and wages for one pay period, before deductions, by 52. Then divide by 12. The resulting amount is the total monthly income.

Household members who are paid every 2 weeks: Multiply total earnings and wages for one pay period, before deductions, by 26. Then divide by 12. The resulting amount is the total monthly income.

Household members who are paid twice a month: Multiply total earnings and wages for one pay period, before deductions, by 24 then divide by 12. The resulting amount is the total monthly income.

Household members who are seasonal workers or work less than 12 months: Project annual rate of income to accurately represent actual circumstances then divide by 12. The resulting amount is the projected monthly income.

Note: Money received from a business or farm owned by you should be reported as "net income." *Net Income is defined as the total income left after business and farm operating expenses are subtracted from gross receipts.*
